

## **Everbright Launches Aerospace Financing and Investment**

To explore the exceptional financing and investment opportunities emerging from China's fast growing aerospace and commercial aviation sector, Everbright through its new established subsidiary - China Everbright Aerospace Capital Ltd. develops Aerospace Financing and Investment business. Everbright originates, structures and arranges funding for well-defined, high-value aerospace assets in China such as aircraft, aero-engines, flight simulators, and related capital equipment. Our services also extend to manufacturing companies, maintenance, repair and overhauls (MRO's) and new technologies. We manage the commensurate risk and arrange financing at competitive rates.
